Dear Professor Heun,

Subject: Editor's decision from *The Energy Journal*

Submission (with Gregor Semieniuk and Paul E. Brockway) titled "Energy, expenditure, and consumption aspects of rebound, Part I: A comprehensive theoretical framework"

Thank you for your submission to the *Energy Journal*. The critical referee from the previous round raises a number of important points. I would be pleased to consider a revised version if you incorporate the reviewer comments to the extent possible.

Sincerely,

Adonis Yatchew, Ph.D.
